

Select **System Preferences** from the Apple menu.

Double-click on **Print & Scan (Print & Fax)**.

In the Print & Scan (Print & Fax) window, *click* on the plus sign button.

Click on the **IP** tab in the Print Browser window.

1. Set **Protocol** to **Line Printer Daemon - LPD**.
2. For **Address**, enter **the IP address of the printer you want to add**. IP addresses of MSL printers are available on the printer list.
3. Leave the **Queue** field blank. The **Name** and **Location** fields are for your reference to keep track of your printers and differentiate between multiple ones.
4. For **Print Using**, *do not select Generic Postscript Printer*. OS X will try to locate an appropriate driver but if it cannot then It is recommended to download the correct driver from the manufacturer. Click on the name of the printer on the printer list to be taken to the manufacturer's driver download page
5. For Sharp 2nd and 4th floor printer Here is the link to download:
http://support.sharp.net.au/drivers/software_licence.asp?section=COP&filename=MXNB11_1503a_OSX108-1010.dmg

For [HP LaserJet Enterprise 500 color Printer M551dn](#):

Here is the link to download:
